

Never-Ending Summer

CYN

Thank my lucky stars like I made a wish
Crossing all this shit off my bucket list
I don't got a lot but I still feel rich
I might get a lot but I'll never switch

Sticks and stones won't make me bleed
Lift me up, no gravity
Windows open, I can breathe
I'm going so fast

90 degrees, not a cloud in sight
Feels like the 4th of July forever
It's so hot, it's like
Living in a never-ending summer
Now I don't know how I got so high
Feels like I'll never see December
It's so hot, it's like
Living in a never-ending summer

What if we don't ever have to say goodbye?
I wanna keep living like we'll never die
If you're mad then I'm mad too
You're crying, I'm sad too
I'll watch your back for you, watch mine (please)

Sticks and stones won't make me bleed
Lift me up, no gravity
Windows open, I can breathe
I'm going so fast

90 degrees, not a cloud in sight
Feels like the 4th of July forever
It's so hot, it's like
Living in a never-ending summer
Now I don't know how I got so high
Feels like I'll never see December
It's so hot, it's like
Living in a never-ending summer

Wanna live this moment for the rest of my life
(Living in a never-ending summer)
Wanna live this moment for the rest of my life
(Living in a never-ending summer)

90 degrees, not a cloud in sight
Feels like the 4th of July forever
It's so hot, it's like
Living in a never-ending summer
Now I don't know how I got so high
Feels like I'll never see December
It's so hot, it's like
Living in a never-ending summer

Alright let's do it again
