

## Calm Inside the Storm

Cyndi Lauper

I can get up  
On the right side of the bed  
But that won't stop the rain  
From coming down on my head  
I can live my life  
Playing hide and seek  
But when I look inside  
It's hard to make believe,  
Ah ah

'n lately  
You seem so far away  
I wish I could say something  
But I don't know what to say  
I can feel your eyes  
I don't have to look at you  
Boy, discontentment  
Is-a-sneakin' through

You never really want anything  
But what you really need is everything  
I'll give you something only life can bring  
The calm inside the storm  
Love me a little, love me long  
Wo yeah  
The calm inside the storm  
Love me a little, love me long  
Don't you know  
You should be holding me  
But you're all locked inside  
Why don't you throw me your keys  
I'm like a rockin' ship  
On your rollin' sea  
You know crash lightnin'  
Never frightens me, nah

...you never really wanted  
But what u really needed  
I wanna give u something  
Mmm... the calm inside the storm  
Love me a little, love me long  
Love me a little, love me long
