

## Architects of Consciousness

Cynic

Starseeds gather, compute  
Settle the mind, enter the heart  
Unveil ascension codes

Starseeds, protect the Earth

The laws of energy  
Vibrate in harmony  
Inner to outer  
Upward to downward  
Invisible guider

The architects of consciousness  
Illuminated seraphic  
My hand across the void

Starseeds fractured in two

A turning of the wheel  
To a crystalline frequency

Inner to outer  
Upward to downward  
Transmission viewfinder

The architects of consciousness  
Atomic particles amidst  
A hand across the void

The architects of consciousness  
A hymn of birth where we exist  
A sacred path, a tender wish  
The ebbing tide, the moon eclipsed  
An astral energy emits  
A floating lotus edifice  
Awake inside the dream
