

Crossroads

Cypress Hill

We rise and fall
In that rat race to win it all
Standing tall as we ever did
And if you recall
The very moment
You seek an opponent
You better own it
Like ya seekin' atonement
Or you've blown it

Time after time
Haters prayed for our decline
They could never dim the light
That shines in this paradigm
The vibe intertwined
A love and hate frame of mind
Livin' in the balance
As I'm dancin' with the devil's kind
Reminded by the thin line
We walkin' as we lead the blind
Steppin' to the stairway to heaven
Where we all resign
What you find in the vision
Of the grand design
We are eternal in this journal
You might find a sign
Live free tell it how you see it
You can be it
See ya dream and seize it
Unlock ya dream and release it
It ain't a secret we believe it
Never doubted
Watch the words manifest
In every way you heard us
Talk about it

It's a long road
See you at the crossroads
From a soldier to a leader
We in boss mode

It's a long road
See you at the crossroads
From a soldier to a leader
We in boss mode

We're one in a million
Making you feel this feelin'
You're feelin'
You hit the ceiling with one hit
Of the herbal healin'
It's a killin how we run the set
And move the masses
We advance taking chances
As the time passes
Never gamble with ya life
When the odds are against you

But if you been thru
What we've been thru then you must continue
And now we pray before we play
As we slayed the venue
The cultivation of a fan base
Not on the menu
Stoppin' not an option
You get in the way take precaution
We're too heavy
And the momentum is jaw dropping
Not very often
Do you see the likes of these uncommon
Herbal shaman here to
Spread the love and hit the rosin'
If you have a long run
You ain't never done
Never been the one to run away
Never leaving son
We never fade away
While others gettin' laid away
Roaches gettin' sprayed with raid
Haters you can hate away

It's a long road
See you at the crossroads
From a soldier to a leader
We in boss mode

It's a long road
See you at the crossroads
From a soldier to a leader
We in boss mode
