

## Dr. Greenthumb

Cypress Hill

Hello, I'm Dr. Greenthumb  
Have you ever had the problem of running out of weed  
and just can't find some anywhere?  
Well try my Dr. Greenthumb grow tips  
I'll show you how to grow inside and out  
From seed to clone, and the best homegrown  
And if you're afraid of those pesky pork choppers in the sky  
No worries, we'll fix them too  
with one of our Dr. Greenthumb 'Sizzlelean' screens  
to block the nosy pig's vision  
Don't believe me?  
Just ask one of my many satisfied clients here Jed Sanders  
how well it works

Hyuh, hyuh, hello my name is Jaid  
And I'm a farmer and I've been growing  
Mary-jah-wana fer about twenty years and uhh  
uhh, with Dr. Greenthumb's 'Sizzlelean' screen  
I don't have to point my shotgun  
at them pesky porkers no more  
Thanks Dr. Green, you're the shit

Yes, Dr. Greenthumb's got it all, I guarantee it  
Try my book and you'll have the chronic in no time

"Hello Dr. Greenthumb, paging Dr. Greenthumb!"

Hello my name is Dr. Greenthumb  
I'd like to tell you just where I'm from  
In the hills where the trees grow wild with weed fields  
The fucking pigs with shields holding the blue steels  
Greenhouse effect with the weed connect  
(Doctor) DEA can't keep Greenthumb in check (Doctor!)  
HPS, God Bless the whole crop  
Please God, don't let me see no cops  
Trunkload, ready to hit the highway  
Don't let the eye in the sky fly my way  
or we gonna have big trouble, that's no shit  
Can't be growing without no permit  
but fuck that, I study the 215 trip  
That way when they come they can suck my dick  
Weed can't grow without attention  
Hello my name is Dr. Greenthumb

Hello my name is Dr. Greenthumb  
Hello my name is Dr. Greenthumb!

Hello my name is Dr. Greenthumb  
Hello my name is Dr. Greenthumb  
Hello my name is Dr. Greenthumb!  
I'd like to tell you just where I'm from  
Ayyo Dr. Greenthumb, come on back one time!

People can't live without the herb man  
If not they'd be drinking and driving and swerving  
but thanks to Dr. Greenthumb weed grow  
in the backyard or inside with hydro  
To the cush plant brushing a tangerine dream  
Tasty, blowing a fucking smokescreen  
Cycles of weed are constantly grown  
Somebody give me the razor to cut groves  
I'd like to stop, but it feels so good  
Horny plants stinking up my whole neighborhood  
Sticky angel, I wanna leave it alone  
but never ever ever gotta worry from my home  
What that funny sound knocking at the door (Open up it's the DEA!)  
Sorry Greenthumb can't talk no more  
Please don't follow me into the sun  
Hello my name is Dr. Greenthumb

Out from the lab, no need for rehab  
If I can't drive then call me a cab (taxi!)  
In my closet the weed is dried out  
Like Eiht said, ain't no place to hide out  
I don't wanna buy no weed from no cop  
Get knocked up and they close up my shop  
That's why I buy no weed from no one  
That's why they call me Dr. Greenthumb  
The scientific, mystical one  
Growing my crops with the rays of the sun  
Come one come all and see how it's done  
If you see the pigs there's no need to run  
Cause some of these pigs are down with Greenthumb  
But you never know what be the outcome  
You see the photo in the album  
The weed is growing like my erection  
Look I never told you where I was from  
Some call me Real, but I'm Dr. Greenthumb
