Dr. Greenthumb

Cypress Hill

Hello, I'm Dr. Greenthumb
Have you ever had the problem of running out of weed
and just can't find some anywhere?
Well try my Dr. Greenthumb grow tips
I'll show you how to grow inside and out
From seed to clone, and the best homegrown
And if you're afraid of those pesky pork choppers in the sky
No worries, we'll fix them too
with one of our Dr. Greenthumb 'Sizzlean' screens
to block the nosy pig's vision
Don't believe me?
Just ask one of my many satisfied clients here Jed Sanders
how well it works
