Czarface

The Czar strikes again

They call me Jim Lee, Larry Hama  
You rock a show for empty chairs like a psycho drama  
I'm half boring dad, half norrin rad  
But you the one with the silver medal, check the scorepad  
Torture gimmick, Moment I take Horses in it  
Push ya towards the limit I'm Montel Vontavious Porter with it  
Back on my bullshit just like when Jordan pivot  
And you ain't got a leg to stand on, orca with it  
Fools rushing in, USSR  
Yeah the ship's coming in, USS CZAR  
Sorta clever, For Showbiz I'm a Lord Finesser  
More respect for dummys? Well  
Hook up the mic like Jordan Klepper  
You only gun dog, that's a Gordon Setter  
You more or less a court jester  
I'm a bigger portion getter  
Get em open like Mike Eagle  
CZARFACE'll fight evil, like Spike Spiegel  
Our bite's lethal

Deck got your head in a lock (I can't believe it!)  
Bringing the pain so intense that you beg it to stop  
I rap hard my stat jumps several spots  
Still uncontrolled substance whenever I drug  
I be slightly bit like 7 o'clock  
The flow wet cement how I get it to rock  
Ready or not, I wreck shop, rep at the shot  
This is pure war, bubbling out the measuring pot

Twenty four seven, three sixty five  
I'm keeping it live  
Real wolf, you a sheep in disguise  
You can come along free for the ride  
To save me a piece of the pie  
Keep it in mind, this business all feelings aside  
If you're feeling like I'm feeling just believe in your guy  
I'm bringing new meaning to fly, reason to vibe  
Read between the lines, this is deeper than rhymes

Ah, you're opening your eyes...

If I told you my friend I am a trader, and you are a piece of valuable merchandise which will bring a most highly sum...

But since this chain indeed has two ends, little worm, who is to say which of us is really the prisoner here?
