Yeah man

Like I ordered two tacos, man, they gave me three

Super what? Super what?

Let's see how he likes this dose of

Super what? Super what?

It's carnival row out here, man

Czarface a été aperçu sur notre radar, volant au dessus des nuages

When their ribs touchin', you can get your crib rushed in

The kid frontin' like he did somethin'

Wig crushin' like we ain't got the pigs lustin'

You a bozo, clown, this ain't a kid function

I'm big lunchin', your lips bumpin'

So deadly with the craft, got me duckin' the witch huntin'

My fit's stuntin', your chicks in the whip crushin'

They fist pumpin', they've been lovin' your big cousin

It's nothin'

Natural element, rational, irrelevant

What he lack in sentiment was stashed in the tenement

Sounds brash, so imminent you can hear death

Alas cheap cologne, cold swine, beer breath

You in there fresh, laugh, steer yes (Yes)

Severe test passed, "Next corner, veer left"

Mask told, New York City mad cold

Whoop 'em like an ass though, scrapped in a man hole

Damn, yo

Yo, used to go Rambo

Now I don't start a fight, freeze him in Czarbonite, Mando

Even when demand's low, commando

Spaceknight, that all right, Bill Mantlo

Anthro, light 'pology, a curly Lambo

Y'all use keys, I use a pen to make a van go

Y'all new low, selling fifty dollar features

My new low, white and blue to match my sneakers (Yeah)

I get loose, swear on my name like Shih-Tzus

Flip truth like Cliff Booth when he whipped Bruce

CZARFACE

Here on the computer

Super what? Super what-what?

Remember to keep a mask, ninety-nine cents a cent

Keep a mask, keep a mask

Here comes Vader slashing with a saber

Here on the computer (DOOM!)

Yeah, the whole mask thing

Punk can't slide from ground zero

(CZARFACE) Labeled a town hero

Or anything, he never took the mask off

In fact the same wrestler went to the White House

And put Jimmy Carter in a headlock with that mask on

He would go into the bank and cash his check with that mask on

Super what?
