Africa is my descent and here I'm far from home I dwell within a land that's meant meant for many men not my tone

The blood of god is my defense let it drop down 2 my seed showers 2 your innocense 2 protect U for all eternity and with this wood I beat this drum and we won't see defeat

From kings 2 queens becomes a prince knowledge wisdom is understanding what we need

Ever since the day U came
my whole world began 2 change
I knew then 2 dedicate my life,
4 your own
everyday I see U grow
and remember what U already know
I receive the love
that radiates from your glow

From which U came was love and that's how it all should be U and my soul are 1 through all the time and history
