

I'm sending young boys to cunch, London, Victoria
We pull it out and clap it in front of the audience
Best friend a Scorpio, we sting you with that scorpion
My baby, Gloria, her pussy is so glorious
In my experience, Libra girls and Leo gang, that shit is serious
My burner shoot women and niggas, it's bi curious
My hitter shoot you, ballied up, because he serious
And I'ma still hit her if it's her last two days on her period

What is your worth? Do a trip, get you a purse
Put the MAC on semi-auto, put it in burst
Last time I got dirt on my name, tried to put Dookie in the dirt
Thumb in her bum, she tryna firm, I know it hurt, she squirm
My new shotgun shells longer than the worm
My nigga stab you in the face, I say the word
Hit a lick then bridges burn , nigga, you live and you learn
Last fiend I gave my heroin to, she said that shit was superb
Bro don't understand, just count a hundred grams
Bro don't understand, keep tryna slap that wap too quick, that shit don't work, that shit will jerk
Thing don't work
Iron him a good shirt, they can put you in a shirt
