

Sometimes, I ask my lady "Why me?"

Why me though, ya narsayee?

This ain't no love song (Ski-ski, ski-ski, ski-ski, ski, ski)

I don't want anybody else

Anybody else but you

I don't want anybody else (Skrtrt, yeah)

Anybody else but you

I had to get up and leave (Yeah)

I had to let this shit breathe

Emotional times, she weak

I can't let the pain sink in, no speak

She ain't got time for the 'Gram, she works

All about her brain, she study, she learns

Still up in the street when I met you at first

Girl, you hold me up and that's down to Earth, yeah

Chanel for your feet, and I even thought about a wedding ring (Skrtrt, skrtrt)

I get love on the street, and I can put that on everything (On everything)

They see the pain in my eyes, baby girl, I'm off medicine (I'm off medicine)

I just spoke to slime in jail, he gotta stay positive and that's the shit I keep tellin' him

Codeine on my flight while I reminisce

Girl, I think I need to stay ahead of this

I had shots in my mouth like a peppermint

My niggas OT like terrorists

If I bust down a brick, that's a homerun (Yeah)

Call up Poppy just to hold one

Bro take the line, control one

When I came in this game, I got no love

The pain ain't lettin' me go (Uh-huh)

Crazy how the love dies down but the memories don't (Mm-hmm)

Crazy how you spoke everyday, now you're lettin' them go (Lettin' them go)

Hearts don't break even at the end of the road

Now I got my weed and its rolled, oh, no (Uh-huh)

I don't want anybody else

Anybody else but you (Yeah, I need a real one)

I don't want anybody else (To be my backbone)

Anybody else but you (For real, for real)

Back then, I used to love you hard

You signed up for a drug dealer, not a drug user

And one of my toxic traits is I love too much, for real

But I ain't that good at receiving it

And I'ma just pull out, deceiving it

And show you how much I been fiendin' it

New coupe, I look clean in it

Bow down and believe in it

In the back with the screens in it

Red seats, ice cream in it

Just pray that my princess straight by the end of my life, yeah

So I make sure the pack gets done by the end of the night, yeah
