Runaround

D.I.

Open up my eyes what is it I see?
An oppressive world right in front of me
Lookin' all around look at you and me
I'll never understand your reality
There's nowhere left to hide my best friend just died
Mama's fallin down talkin' suicide
Anxious bitter taste deep inside of me
I nice healthy dose of life's misery
There's no room for closed minds anymore
It's time to open up your thoughts
And there's no way around it
Life's still going on testing you and me
Cutting through the crowd we'll never be the same
A .... ride but then he goes and hides
A .... will slap you in the face
All I hear from you is many many lies
You're a ..... with no compromise
Looking all around, look at you and me
I'll never understand your reality
Still I often wonder how people could have such stuck up minds
Break free from their garbage
Leave that all behind
Round, round, runaround happening to me
I'll never be the same, goodbye to you and me
Round, round runaround happening to me
I'll never be the same, goodbye to you and me
