

Class war

D.O.A.

I want a war, between the rich and the poor.
I wanna fight and know what I'm fighting for.
In a class war, class war, class war, class war, class war, class war, class war.
In new york and la, city halls are falling down.
There's no escape, when a class war comes to town.
In a class war, class war, class war, class war, class war, class war, class war.
If I'm told to kill, in beirut or salvador, there will be a class war, right here in america.
In a class war, class war, class war, this war, that war, class war, last war
