

Earache

D.O.A.

Earache, earache, yeah, I got one
Earache, earache, hit-hit me like a gun-gun
That's what I get from listening to you
That's what I get from hearing you spew
Headache, headache, you're like a migraine
Headache, headache, you're hard on the brain
You're always talking, but you don't know nothing
You're always talking about hating someone

But I know that
You are nothing
You prove it every time
You open your mouth

Earache, earache, your ideas give me
Earache, earache, you say some are better
The ones at the bottom should get less
It's tough enough already, it's a real mess
Headache, headache, I get from the press
Headache, headache, they tell the lies the best
They're gonna make my head explode
They're dragging me down, it's a heavy load

My brain is aching
And my ears are sore
You keep on blithering
Yeah, you're rotten to the core

Earache, earache, yeah, I got one
Earache, earache, hits me like a gun
That's what I get from listening to you
That's what I get from hearing you spew
Headache, headache, you're like a migraine
Headache, headache, you're hard on the brain
You're always talking, but you don't know nothing
You're always talking about hating someone

But I know that
You are nothing
You prove it every time
You open your mouth
