

Fireworks

D-Pryde

Maturing just changed everything, I'm overflowing so don't fill the cup
'Cause everyday's full of stresses that are building up
... Shaking haters 'cause I'm told they ain't got nothing on me
I'm overloaded off caffeine from this cup of coffee
I got my neck tied, give it my best try
I noticed lately I'm leaning more on the stressed side
But I just do it for the music and the love
Just to be one of those legends like the man that came from bedsty
But no biggie I know I'm about to blow soon
Highschool life ain't me I must be home schooled
It ain't a place for me, these students give me wrong stares
I don't want to fit in, I know I don't belong here
I'm not ordinary, I'm feeling over-learned
I see my generation, I think I'm more mature
But I just wish they'd let me try it first
That's how I'm really goin' off- FIREWORKS!

Today it begins
I've missed them before, but won't miss them again
I keep having the same dream
And I think that I just realized what it means

All I see is fireworks
All I see is fireworks
Every night it's fireworks
Every night it's fireworks
All I see is fireworks
All I see is fireworks
Taking off like fireworks
Taking off like oh-ah-oh-oh

I'm sorry for that night, I know that you shouldn't have been through it
My dad shoulda picked us up before this whole predicament
Instead I chose to try to spend the night at your house
So when we were at Micky D's I had to slip my phone out
That was a mistake, this anger intakes
I'm having nightmares 'bout that night till this day
But it's true baby how can you be not stressed
He tried to rob my phone and hurt you in the process
Then I defended you, they kicked me and they punched me
I lost my pride, lost the battle and my front teeth
Over a phone that they wanted is incredible
You saved my life girl, I feel like I'm in debt to you
And that's something ordinary girls would never do
And now the rumours will be spreading but what can you prove
I won't deny it when the fans start to find the word
Cause once they jumped me I just felt it- FIREWORKS!

Today it begins
I've missed them before, but won't miss them again
I keep having the same dream
And I think that I just realized what it means

All I see is fireworks
All I see is fireworks
Every night it's fireworks
Every night it's fireworks

All I see is fireworks
All I see is fireworks
Taking off like fireworks
Taking off like oh-ah-oh-oh

I really miss you, and it's really 'bout to mess with me
I keep on thinking that you're in the room next to me
Mama says you're coming home soon I feel it's pretty long
It took days to fully realize you were really gone
But either way we're still brothers to the end
But the fact that my brothers gone is really fuckin' with my head
My girls up in Poland for the summer and it's messed
Cause it feels like every night I'm left to suffer in my bed
Especially at this time that I'm up against
I need somebody just to guide me while I'm struggling
I've had enough of this it's something to forget about
I observe my mother daily and she's stressin out
My real fathers blind to the fact I'm fed up
I know he's somewhere knowing that he evidently messed up
But I'm hoping that my life just won't get kinda worse
But what I'm dreaming 'bout is close- FIREWORKS!

Today it begins
I've missed them before, but won't miss them again
I keep having the same dream
And I think that I just realized what it means

All I see is fireworks
All I see is fireworks
Every night it's fireworks
Every night it's fireworks
All I see is fireworks
All I see is fireworks
Taking off like fireworks
Taking off like oh-ah-oh-oh
