

Flagship Intro

D-Pryde

This is what you made sucker
Look at your thoughtful demise
No pun intended but swallow your pride
I landed on a planet God damn it
They just thought I would die
But you will never see me fall from the sky
How the hell is the game doing
I'm crushing these lames
I'm sitting on my throne surprised
That all the things that money has changed
Lost my crew that I had
And my girl prior to that
And I'm still tryin' to get adjusted to fame
October 13th is where it began
Never it's where it's sending
There's no ending in the existence of a legend
Bow down to the future bro
Cause we 'bout to do it up
Here we got the music industry like
Yo, who's this punk?
And I just know my city got vision
They see me at Mars
And I ain't trying to be Drake
But there's more seats in the car
I'm looking at the future and I'm eager
And I'm passionate, so I'mma put my flag up
On this planet, cause I landed my flagship

I have just landed
I've landed, I've landed, I've landed
I have a flagship, flagship, flagship, flagship
I have just landed
I've landed, I've landed, I've landed
Flagship, yeah, yeah, yeah
Flagship, yeah, yeah, yeah
Flagship

Still riding down my road to this greatness
Still embarrassing these dudes
That are supposedly famous
Still riding around the city
While I'm watching my back
Cause stupid kids think
I be down like that
It's crazy I know this sais
I've moved to my ends
And starting gaining more fame
I started losing my friends
As I lifted to the fame
They were quick to complain
And now these hipsters and lames
Be quick to thinking I changed
Like "where's the old Pryde? I can't feel D"
This is what I wanted to be, the real me
So quit the hipsterism boy
All these guys are just too doom
And I ain't gotta rhyme like I used to

So please stop debating, rating, complaining
Thinking you lames can say things
It's the last time I'm gonna say it
This is me, I won't change
And I ain't leaving here for nothing
And the pain, I'mma bandage it and take over this planet
With my flag cause I landed

I have just landed
I've landed, I've landed, I've landed
I have a flagship, flagship, flagship
I've landed, I've landed, I've landed
Flagship, yeah, yeah, yeah, yeah
Flagship, yeah, yeah, yeah, yeah
