

Glitter To Gold

D-Pryde

From glitter to gold
I see those cameras baby!
Be flashing

We just stepped in here claiming that we looking coldest
In a Honda but they swear I came up pushing Lotus
They told me that the Lord's here looking over
And you only live once, that's what your women told us
So I was in it like spinach in Popeye's stomach
I'm steady living the life that I knew that I wasn't
Picturin' like three years in the past
And now I'm here, I shed a tear for my dad, I'm staying here
And I'm up on that, Movado flow, so special
Business flow, Hov level
Living life, closed schedules
Growing up, no chemo
I want the money bleeding out of me, no menstrual
Big grill, and I wanna be but with gold dental
At the bottom but I swear we look for
We just climbin' 'til we shining like the diamonds on the gold necklace

I just want the big screen (bright lights)
And we gon' shine all day (all night)
Even when this life is scary
We still shining bright canaries
Look at all the big stones (nice watch)
Worry 'bout the big chain (light up)
We 'bout to go "ohh" how
From glitter to gold now

From glitter to gold now

We just step in here stuntin' like there's no tomorrow
Knee sound stumpin' but I make'em look a lardo
But we ain't tryin' to make it lookin' like a car show
We here to live dreams, swagger still mean
I ain't gotta spend it, I'm here for the road
They always wanna run the city, I'm seeing the globe
And they always wanna front about all the knowledge and ish
I tell that this game's all 'bout the people you know
Stuntin' with no foreign car, but we steady mobbin'
Tryna make a miller, Reggie options
Money makin', for the lil' sis
So I could set up a fund, she gotta get to college
Now the woman that I wanted came through
And when you rising, the top could just change you
This is the life that my team hold for
Get it so we still shining like the lace upon this gold necklace

I ain't tryna be rich now, tryna be wealthy
Things look glitter now, but we gon' be up soon
Tell them we the ish now, them haters could get beat
And things will go gold now, gold now
Big screen, bright lights
All day, all night
And we still shining like canaries
