

# Lifted

D-Pryde

I stay  
Murder down to the socks, outfit killer  
Homicide, god I'm fly, tell me why you're into  
Let me act up, back up, tell em I'm a threat this year  
Yeah I rep a coast but I'd rather rep a hemisphere

Feel the feeling though, I know it's in your veins  
Come and bring your girls, catch a little fade  
You know I'm here if you need that break to turn to  
I know you got work, forget your curfew

Cause you can stay up up  
Let me raise this roof that we be under  
When the street lights come-on, until the sun come up  
if they do it like us, know that we could do it better  
I know the parties started when I entered  
So tell em

I can turn you, all the way up, if you'd like me to yeah, let me do it  
They hearing the sound, we're around, even when they tell you turn it down  
I want you to pour up, chill out and get lifted  
get lifted yeah yeah yeah

Young college girl, what's your life like  
All eyes on you like it's fight night  
And you ain't even looking for the right type  
And if them other bitches hating tell em bye bye

I'm Riding high they looking slow  
Repping for my city like I'm biggie on that Brooklyn flow  
Yeah they staring at me I'm like hater what you looking fo'  
They told me that I changed because my cockiness is overdosed

When that beat switch up, I feel just like a million  
Dollar bitches holla plus my clique we keep it triilla  
if they do it like us, know that we could do it better  
I know the parties started when I entered  
So tell em

Turn your mood on up  
Tell them all don't kill my vibe  
They can come and pour up  
Chill out  
And get lifted, lifted, lifted

And if the neighbors say the musics too loud  
Turn it up for em till the cops shut it down

And girl you looking fine, baby you just shut it down  
Shut it down  
Shut it down (down)

Every hood, every burb  
Tell em pick up the word  
And if you give me time  
Here's a memory in return

So baby give me time  
Baby now give me time  
And baby sit back  
Unwind  
And you should know I
