

I asked this one girl if she can promise me
The fame would be apart of me
She didn't, know I'm hoping,
But the future is way to far to see
Had a couple friends and I would give them all the heart in me
Now they say I changed all they do want to start a beef
I'm getting stuff like that, everyday
Man those friends wasn't my friends anyway
Saving up my cash, tryna have every penny saved
Rap is what I love, I feel it just toke my breath away
My little sister hugs me everytime something bad happens
I'm tryna be a better brother I'll be bad it
And when my moneys going all up on the meter
I'm a buy my bro cause I promised him a beamer
And I ain't giving up so my career won't have a sudden end
Cause I'm a make sure momma and dad don't have to work again
When I blast off and put my life into a full start
I'm planning to walk the valley cause the stars are

Cause I've been waiting my whole life for this chance
Been working for awhile now I understand
That I was born to blast off, to mars
Even when they told me that I wouldn't make it
My brand keep my board on to this spaceship
And I'm a bout to blast off, to mars
Ohh, Ohh, Ohhhh

I be hanging with friends, just behaving like the man
Cause the same great friends, came to make me who I am
I'm the kid who would be way to loud to keep talkin
Lyrically these rappers just had to proceed caution
Momma said says I'm gifted and the struggles we may go down
I'm just tryna brush the cold away baby snow clouds
The fans say my style is always like some original sounds
You know I'm here to prove what I can do I can make amazing music
Now I'm ready just to sacrifice me
Turning to back to my old self?

Still got the same friends, Still ripping this game out

Cause I've been waiting my whole life for this chance
Been working for awhile now I understand
That I was born to blast off, to mars
Even when they told me that I wouldn't make it
My brand keep my board on to this spaceship
And I'm a bout to blast off, to mars
Ohh, Ohh, Ohhhh
