

Not Over

D-Pryde

Yeah! Look!

But life is like a movie now
Grab the camera let's go record this night
Step on this stage and when I leave it's back to normal life
Haters hate on how I'm flying I be soaring heights
Picked up music raised like it had an orphan life
And I was born for flight my wings are spreaded high
All you rappers dodo birds know the words you'll never fly
That's what I emphasize the future never back then
Turn your head forward never live up in the past tense
I left depression class sorry for my absence
Escape the teenage life it's too average
I'm too different did it without permission
In the fast lane ain't no need for a speeding ticket
Treating me like I'm Christmas cause my tracks be on your wish list
They calling me the man of the hour like every minute
Show time starting the curtains are opening
Just the tell the city I'm going in (And it ain't over)

We're done but it's not over
We'll start it again after the end of the day
It keeps getting better
Don't be afraid we'll do it together

We're done but it's not over
We'll start it again after the end of the day
It keeps getting better
Don't be afraid we'll do it together

I spit it easy the beats always kill'n please me
I can't leave now the whole damn city needs me
It ain't a joke though I got the raps cornered
Never flash back I'm just having flash forwards
Now my ex is tripping committing bribery
Wanting me back because there ain't no other guy like me
She loves my freestyles I'm on her speed dial
She's got a boyfriend but calls me in the meanwhile
I was a loser Now I'm big now that's why your calling now
You left quick and cut me off we had a falling out
It ended quick but I could never find a start
And now you want me back because my fame is mighty large
But I learned a lesson from heart she made a robbery
I'll never taker her back no maybe's or possibly's
Show time starting the curtains are opening
Just the tell the city I'm going in (And it ain't over)

We're done but it's not over
We'll start it again after the end of the day
It keeps getting better
Don't be afraid we'll do it together

We're done but it's not over
We'll start it again after the end of the day
It keeps getting better
Don't be afraid we'll do it together

Come on Come on you know
It's your time to move it's my time to move
Come on Come on you know
It's your time to move it's my time to move
Come on Come on you know
It's your time to move it's my time to move
Come on Come on you know
It's your time to move it's my time to move

Come on Come on let go
Leave it all this behind Your past's sittin' by

We're done but it's not over
We'll start it again after the end of the day
It keeps getting better
Don't be afraid we'll do it together

I'm going in
Tell the city it ain't over
