

Do It Anyway

D:Ream

Smoke filled rooms and warehouse parties
Laser light
A smiley face
Four to the floor and you know what the score is
You'll be alright
This is the place

Let the music move you
Let the rhythm turn you on
As the beat goes through you
Tears of joy roll down your face
Our days in the sun

We didn't care about the future
We were only living for the day
And if we knew about tomorrow
We would do it anyway
What's that I hear you say? Hey!
We'd do it anyway

Loved up kids hugging water bottles
Body heat
I know that face
Hands in the air and the tunes are bangin'
To get on one
The deal is chased

Taking doves from strangers
You feel that high, you feel the rise
There are always dangers
Rushin' roulette
And it's your turn on the gun

We didn't care about the future
We were only living for the day
And if we knew about tomorrow
We would do it anyway
What's that I hear you say? Hey!
We'd do it anyway
What's that I hear you say? Oh yeah

D-do it, d-do it
D-do it, do it anyway
D-do it, d-do it
D-do it, do it anyway

We didn't care about the future
We were only living for the day
And if we knew about tomorrow
We would do it anyway
What's that I hear you say? Hey!
We'd do it anyway
What's that I hear you say? Oh yeah

D-do it, d-do it
D-do it, do it anyway
D-do it, d-do it

D-do it, do it anyway
