

# Don't Let The Bastards Grind You Down

D:Ream

Don't let the bastards grind you down, you'll be alright  
Better to keep the faith and put up a good fight  
Don't let the bastards bring you down, you'll be ok  
Winning every little day  
Every little victory

Don't let the bastards wind you up and put you down  
Never let them get in through to you is what I've found  
Don't let the bastards grind you down, you'll be ok  
Winning every day  
Every little victory

'Cos I got hope in my heart  
Everyday, it's like I make a brand new start  
And I got faith in my dreams  
My prayer is closer, not as far as it seems

I got hope  
I got hope

Don't let the bastards pass on you and write you off  
Better to walk away with pride, you've had enough  
Don't let the bastards brush you off, you'll be ok  
You can fight another day  
Win another victory

You can beat the powers that be  
Yeah, you can be a star

'Cos I got hope in my heart  
Every day I can make a brand new start  
I got faith in my dreams  
My future's closer and not as far as it seems  
'Cos I got hope in my heart  
Every day, it's like I make a brand new start  
I got faith in my dreams  
My future's brighter and not as dark as it been

I got hope  
I got hope
