

Free Thinking Mind

D:Ream

It's everything, it means everything
Can be anything but it means nothing
I got time to talk, no time to talk
I tried the walk but everyone was running
I do what I'm told and my soul is sold
I am cajoled and the man is watching, yeah
Got so much to learn, too much to learn
But the more I learn, the less I seem to know

Free, as in free, never to be the judge or to be judged
To be obeyed or to obey
Pusher or pushed, in the wrong or in the right
Only in my free thinking mind
How free am I in my free thinking mind?

Elevate into my state of mind

It's not making sense when it's making sense
But in my present tense it just feels like nonsense
I have the time if you've got the time
Do you think it's time to collect my new age pension? Well?
I slave for you and you slave for me
But my reality? Master is servant
In my mind's eye I see the light
A blinding light to a prisoner of conscience

Free, as in free, never to be the judge or to be judged
To be obeyed or to obey
Pusher or pushed, in the wrong or in the right
Only in my free thinking mind
How free am I in my free thinking mind?

Elevate into my state of mind

Free, as in free, never to be the judge or to be judged
To be obeyed or to obey
Pusher or pushed, in the wrong or in the right
Only in my free thinking mind

Free, as in free, never to be the judge or to be judged
To be obeyed or to obey
Pusher or pushed, in the wrong or in the right
Only in my free thinking mind

Free, as in free, never to be the judge or to be judged
To be obeyed or to obey
Pusher or pushed, in the wrong or in the right
Only in my free thinking mind
How free am I in my free thinking mind?
How free am I in my free thinking mind?
