

I Like It

D:Ream

I like it
I like it

I like it (I like it)
I like it (I like it)
This is a new game (I like it)
I like it

I like it, I like it
I like it

I'm not entirely impressed with what you do
The way you faint if I get undressed in front of you
I'm gonna pick you up and put you down upon the couch
Gonna lay you there, just to here you shout...

I like it, the way you make me talk
I like it, when you put me up on top
This is a new game, come on, come on, teach me how to play
I like it, each and every way!

I like it, I like it
I like it

So I take a prude like you and put you on your knees
Just do your worst you know I'm difficult to please
Let's bend the rules and make them up as we go along
It feels so right, when all I wanna do is wrong

I like it, the way you make me talk
I like it, when you put me up on top
This is a new game, come on, come on, teach me how to play
I like it, each and every way!

I like it, I like it
I like it

I like it, I like it
I like it

And I like it, the way you make me talk
I like it, come on put me up on top
This is a new game, come on, come on, teach me how to play
I like it, each and every way!

I like it, I like it
I like it

I like it, I like it
I like it

I like it, the way you make me talk
I like it, when you put me up on top
This is a new game, come on, come on, teach me how to play
I like it
