

I'll Be Your Dog

D:Ream

I'll be your dog
I'll be your dog
Put me on a leash, take me for a walk
I'll be your dog
Don't make me beg
Don't make me beg
I'm faithful and kind, only you on my mind
But don't make me beg

You can lead me and I'll follow
You can lead me and I'll follow

Every night, I'm down on my knees
Every night, I just wanna please
Every night, when you turn to leave
You hurt me, babe, don't hurt me, babe

I want you

I'll be your dog
I'll be your dog
Put me on a leash, take me for a walk
I'll be your dog
Going out of my head
Out of my head
Here, with a bone on the bed
All alone
Out of my head

You can lead me and I'll follow
You can lead me and I'll follow you

Every night, under the moon
Every night, I howl like a wolf
Every night, in hunger I cry
Don't leave me, babe, don't leave me, babe

I want you, only you

Every night, I'm down on my knees
Every night, you do as you please
Every night, when you turn to leave
You hurt me, babe, don't hurt me, babe
Every night, under the moon
Every night, I howl like a wolf
Every night, in hunger I cry
Don't leave me, babe, don't leave me, babe

I want you
I want you
Don't hurt me, babe
