

Into The Fray

D:Ream

Back into the fray
Feels like I've never been away
Back into the fray
What a beautiful day
I barrelled over falls
Washed up, underwhelmed by it all
Turned from everyone
A fubar northern soul

Hello beautiful
You're gorgeous
I'm watching you, baby
Walk on by
Hello beautiful
It's more than us
Imagine it
Together, getting high

Back into the fray
Feels like I should never have gone away
Welcome to the fray
How I'm feeling it
Searching happiness
Finding it in the chaos and the mess
No finer temptress
For a fubar northern soul

Hello beautiful
You're gorgeous
We love you, baby
Walk on by
Hello beautiful
It's more than us
Imagine it
Together, getting high

Hello beautiful

Walk on by

It's more than us
Imagine it
Together, getting high
