

Many Hands

D:Ream

Many hands
Many hands
Many hands
Many hands

Many hands
Guiding me, praising me
Many hands
Touching me, sensually
Many hands
Raising me up to see
So many hands
So many hands

None of us really know
What the future holds
It's plain to see
A simple human need
When along the way
It makes a brighter day
You hand me hope, that's the truth
I feel I got no limits

You know
We just can't do this journey on our own
If you think you can
You wanna go it alone?
Don't do that, man
I need you
You need me
I need you
I got friends, I got family
I got everyone here that's important to me
I can see
I got people I know, people I'd like to know
But you know there's a song as you saunter along
For your journey
Here's a song as you saunter along
So sing it to me

Many hands
Raising me, praising me
Many hands
Showing me which way to go
Many hands
Lifting me up to see
Many hands
So many hands

We need each other

None of us really knows
What the future holds
It's plain to see
A simple human need
Along the way
It makes a brighter day

When you hand me hope I feel the truth
I feel I got no limits

Many hands
So many hands
Feel I got no limits
Many hands
So many hands

We need each other
Many hands
None of us really knows
Sisters and brothers
Many hands

Got no limits
Got no limits
Got no limits
Got no limits
