

Party Up The World

D:Ream

I worry about tomorrow but I've got to seize the day
I want to get to seventy and say I did it my way
Buried by my troubles got to pay the rent
But when I get to Saturday I find my money's spent

And I, yeah, yeah, yeah
Come on, sing it, sing it, sing it to me
And I, yeah, yeah, yeah
Come on, just sing it, sing it, sing it

I wanna party up the world, yeah, yeah, yeah, yeah
I wanna party up the world, my world, this world, yeah

I see the party figures man, I hear it on the news
They hype another casualty and we're the ones who lose
Seems the politics of dancing means we can't have fun
This criminal injustice beats the rhythm from my lungs

And I wanna party up the world, yeah, yeah, yeah, yeah
I wanna party up the world, our world, this world

Out of me, out of you
Taking our breath away
(Out of me, out of you)
Taking our breath away
(Out of me, out of you)
We're Taking our breath away
(Out of me, out of you)
We've got to live every day
As if it were our last day
Celebrate, yeah
As if it were our world, your world, one world
I wanna party up the world
Come on, sing it, sing it, sing it to me

I wanna party up the world, yeah, yeah, yeah, yeah
I'm gonna party up your world, my world, this world, our world
I wanna party up the world, yeah, yeah, yeah, yeah, come on
I'm gonna party up the world, our world, this world
Let's throw a party for the world, come on
Let's throw the party from the world
Let's throw the party from the world
Let's throw the party from the world
Let's throw the party off the world
Let's throw the party off the world
Let's throw the party off the world
Let's throw the party off the world
Your world, this world, our world, the world
Let's throw the party off the world
This world, your world, our world, the world
Let's throw the party off the world
Your world, the world, this world, yeah
Let's throw the party off the world, yeah
Let's throw the party off the world
Let's throw the party off the world
Let's throw the party off the world
Let's throw the party off the world

Let's throw the party off the world
Let's throw the party off the world
Let's throw the party off the world
Let's throw the party off the world
