

# Skin Tight

D:Ream

You got me with your skin tight  
Like a rabbit in the headlights  
Got me with your skin tight  
Like a rabbit in the headlights  
You've got me with your skin tight  
Like a rabbit in the headlights  
N' you got me with your skin tight

I think I'm in love

Got to have you in my life  
I got to have you every night  
I got to have you every day  
'Cos I can't stand you walkin' away  
I can't stand you walkin' away

You got me with your skin tight  
Like a rabbit in the headlights  
Got me with your skin tight  
Like a rabbit in the headlights  
You've got me with your skin tight  
Like a rabbit in the headlights  
N' you got me with your skin tight

Think I'm in love

Got to have you in my life  
No, I've not seen nobody  
I've never seen nobody walk like you  
Nobody talk like you  
Don't go go go go go go away  
No, no  
Don't go, no don't you go no  
Don't walk away, walk away

You got me with your skin tight  
Like a rabbit in the headlights  
Got me with your skin tight  
Like a rabbit in the headlights  
You've got me with your skin tight  
Like a rabbit in the headlights  
N' you got me with your skin tight

Oh God I think I'm in love

Got to have you in my life  
No, I've not seen nobody  
I've never seen nobody walk like you  
Nobody talk like you  
Don't go go go go go go away  
No, no  
Don't go, no don't you go no  
Don't walk away, walk away

You got me with your skin tight  
Like a rabbit in the headlights  
Got me with your skin tight

Like a rabbit in the headlights  
You've got me with your skin tight  
Like a rabbit in the headlights  
N' you got me with your skin tight

I think I'm in love
