

The Miracle

D:Ream

(Woo, yeah, yeah)

Welcome into my world
Welcome into my head
Where the things that mean so much are better left unsaid
Y'know, y'know, this is a beauty undefined
A spell to hypnotize you, yeah

Yeah, yeah, yeah
You within your magic raise my smile
You make everything worthwhile
Release the pressure every day
You give me, give me, give me, give me

It feels like a miracle, it feels so unreal
It feels so beautiful, it feels so unreal
It feels so spiritual, it feels so unreal
It feels like a miracle (the miracle of love)

Dividing and uniting
It bridges me and you
I get caught up in an undertow
But boy, what a way to go
So gorgeous and divine
It's heaven-sent cloud nine, yeah

Yeah, yeah, yeah
Look at me, blind fever, hollow days
You bring me recovery
And to my rescue just like a saint
You give me, give me, give me, give me

It feels like a miracle, it feels so unreal
It feels so beautiful, it feels so unreal
It feels so spiritual, it feels so unreal
It feels like a miracle

We've started something we've got to finish
Tie the lifeline miracle, sublime, take the time
And fall down this minute, hey, yeah
Feels so magical, you make it real
Feels so natural, you make me feel
It feels so spiritual
A real-life miracle
Feels so beautiful and that's the miracle of love
(Yeah) oh, yeah

It feels so natural, it feels like a miracle
It feels so natural, a real-life miracle
The miracle of love
It feels like a miracle, it feels so unreal
It feels so beautiful, it feels so unreal
It feels so spiritual, it feels so unreal
It feels like a miracle (the miracle of love)
The miracle of love
Spiritual feel, yeah
The miracle of love
