

U Make Me...

D:Ream

It's a tricky situation
Love can come and love can pass you by
Can't afford no hesitation
'Cause when it goes, you ask yourself, 'Why?'

It's not too late
You think they still love you
It's not too late
Love will conquer all
It's not too late
You think they still need you
It's not too late
Don't let it pass you by

You make me high
You make me cry
Light up my life, oh you
You can't walk away
I need you to stay
Know that I'm not over you

There's no meaning without reason
You say goodbye, you'll blow my mind
Can't imagine life without you
You are my joy, my dreams, my high

It's not too late
You think they still love you
It's not too late
Love will conquer all
It's not too late
You think they still need you
It's not too late
Don't let it pass you by

You make me high
You make me smile
Light up my life, oh you
You can't walk away
I need you to stay
Know that I'm not over you

Don't let it pass you by

You make me high
You make me cry
Light up my life, oh you
You can't walk away
I need you to stay
Know that I'm not over you
