

Unforgiven

D:Ream

Here I am, masterplan, gotta find someone to get on
Play the game, stake my claim, unashamed I'll burn it up
Come to me, dance with me, befriend me, do to me, anything that
you want
Worship me, adore me, ah you're so good for me - you're my fait
h I believe

Unforgiven, for what we've done
Unforgiven for what we have have not done

Then again, be my friend, is this how all love begins?
Face to face in this place, in the landscape of your skin
Come to me, dance with me, befriend me, do to me, anything that
you want
Worship me, adore me, ah you're so good for me - you're my fait
h I believe

Unforgiven, for what we've done
Unforgiven for what we have have not done

Committed a crime, unforgiven
I'm guilty of lying, unforgiven
I cheat on the deal, unforgiven
And given away all hope of love and life for free

God help me, God help we...

Unforgiven, for what we've done
Unforgiven for what we have have not done

Committed a crime, unforgiven
I'm guilty of lying, unforgiven
I cheat on the deal, unforgiven
And given away all hope of love and life for free

The lies that we've told, unforgiven
We reap what we've sown, unforgiven
We cheat on the deal, unforgiven

We've given away all hope of love, the things that we've done
We've given away all hope of love and life for free

God help me, God help we...
