

We Are Fans

D:Ream

So many questions float on the air
Can you imagine what goes on there?
Clever equations describing verse
Infinite answers, a million firsts

We are fans
Putty in your hands
We are fans
When we come upon you
We are fans
In step to your dance
We are fans

Pondering over lights in the sky
Making you wonder with the eyes of a child
There are more stars than there are of us
The faith of our fathers lost in the universe

We are fans
Putty in your hands
We are fans
When we come upon you
We are fans
In step to your dance
We are fans

We are fans
We are fans
We are fans
In step to your dance
We are fans
So in awe of you

We are fans
Putty in your hands
We are fans
When we come upon you
We are fans
In step to your dance
We are fans
So in awe of you
