Small town boy with small town ways looking at the sky, say i wanna these days chance will come and call my name from that moment on, life will never be the same Im gonna break through thats what i dream now would do just cause to show you

Anything can happen if you dare to dream Miracles can happen when you dare to dream Nothing is impossible if you believe theres no a goal you can to achieve when you dare to dream

Doubts make call from day to day but just hold on no matter what they say I want look back when times go by Im say to myself that i didnt try

Anything can happen if you dare to dream Miracles can happen when you dare to dream Nothing is impossible if you believe theres no a goal you can to achieve when you dare to dream

Always been in dream with my head in the clouds
But now then more that Im aloud
If you wanna reach the stars is hard to them to high
I always hoped that I could fly
