

Don't Cry

D-Side

Sometimes things can get crazy
But, there's no reason to go run and hide
I haven't heard from you lately
The days and nights just keep on passing by

Well I guess that it's over
But, I have no fear in letting go
I gotta look to the future
It's time to face the music
And make it on my own...so.....

Don't you cry for me baby...
I'm operating on a natural high
Don't you cry for me baby...
The past is over now so kiss it goodbye

Don't you stand in my shadow
Cause when you do I take it personal
I guess it's time to let you go
Can't sit here waiting for a miracle

I got to get a reaction
Communication seems to be a no
What happened to the attraction
If I don't get an answer
I think I better go...so.....

Don't you cry for me baby...
I'm operating on a natural high
Don't you cry for me baby...
The past is over now so kiss it goodbye

Don't you cry for me baby...
I'm operating on a natural high
Don't you cry for me baby...
The past is over now so kiss it goodbye

Don't you cry for me
Don't shed a tear for me
I'm gonna be alright
Don't you cry for me
I'm not in misery
I can't wait.....I'm gonna have me a goodtime

Don't you cry for me baby...
I'm operating on a natural high
Don't you cry for me baby...
The past is over now so kiss it goodbye

So don't your eyes-no need to to cry-no time for sad goodbye
It's time to go-nothing to show-so baby don't you cry
