

# She Gives Me Life

D-Side

She stood smiling in the sun  
When I first came along  
My heart was beating  
Telling me that you're the one  
I felt something deep inside  
That words cannot describe  
And now I know  
There's nothing I can hide

Time stood still for me  
And I could not believe  
With just one look I'm falling  
Baby you're the one for me

Chorus:  
She gives me life  
She gives me love  
And I can see the whole world here  
From where I'm standing  
This paradise I won't give up  
And I just want the whole world here  
To know that she gives me....

She could be your brightest day  
Your working week, your play  
The one to show you  
Loving in a special way  
Someone always to be there  
With love enough to share  
And in your hour of need  
I'll be the one to care

She gives love so deeply  
Changed my life completely  
Just one look I'm falling  
Baby you're the one for me

Chorus

Everything I want  
And everything I need  
'coz I can't get enough  
Of what she's given me  
And as the seasons change  
Who knows what will remain  
Will I still feel the same  
About her?
