

Clockwork

D Smoke

Love me like the world that we know may end
We may not have the time come June when they end

Listen, I'm in love wit' you (Yeah)
But not the kinda love that's above the roof (Girl)
I'm not gonna shine it up, it's a diamond in the rough
Like we signed both our names with a number two (Two)
It's only been a minute but we getting evicted
Gone like we sippin' on a hundred proof
Let me thank you in advanced for putting me in your plans
Now we owe each other time like we unrecouped
Outside the view's not clear
The sky fell in the past year (Past year)
No clientele, ain't no cashiers
The world's approaching a fast end
I beg to lose my fears
And live like they clock my jam
And the gears might stop like, "Amen"
So I'm here for time, just say when (So)

Love me like the world that we know may end
We may not have the time come June when they end

Want you to love me like time is ticking
Time is ticking, time is ticking
Want you to love me like time is ticking
Time is ticking, time is ticking

Super, mm
To our benefit, we a lil' more close than a lil' bit
You done felt more strokes in a year
When you text, I appeared
And we sex something diligent
And when you give me neck, we connect, making eye contact
And when you done, I'ma make your thighs jump back
And when the sun rise, we gon' line our back
And philosophize never been the type, small chat
If the lights off, then we making music
You play the right parts, everything we do all came at a high cost
Giving you a piece of me like a pie chart
You sippin' a sidecar
Either way if today is our last one
We gon' make it better than all of the past ones
Whatever you want, just gotta ask once
Baby girl, say, "When" 'cause the world may end

Love me like the world that we know may end
We may not have the time come June when they end

Want you to love me like time is ticking
Time is ticking, time is ticking
Want you to love me like time is ticking
Time is ticking, time is ticking
Want you to love me like time is ticking
Time is ticking, time is ticking
Want you to love me like time is ticking
Time is ticking, time is ticking

Oh

Mm, thinkin' 'bout you

Mm, this about you tonight

I'm dreaming of you (Dreaming of you, babe)

(Yeah, yeah)

Dreaming of you tonight

Thinkin' 'bout you (Thinkin' 'bout you babe)

Ooh, ooh, let me pass the time (Pass the time)

Thinkin' of you
