D Smoke

Uh, yeah

Diamond life  
Love a girl  
Music transport people to another world  
In the city life  
You my nature pearl  
I won't forsake or try to break ya  
I done played with hearts, wish fate would have it otherwise  
You stole my heart, is it a crime?  
I still listen to all yo' shit but it's never good as the first time  
On Inglewood I left your life  
Music, you're my only wife  
Need you to lift me up cause now I'm stuck here

Bangin' Sade, Sade, Sade, Sade  
Bangin' Sade, Sade, Sade, Sade

How did I get in this hotel room  
Conscience been pullin' my coattails soon  
I'ma be makin' up folk tails, tellin' my selfish Ju-July like June  
Ju limelight often, Ju crime fight through music  
Ju swipe like broom  
Ju knocked them down when you need them, then leave them  
Ju pipe-pipe too  
Ju eyesight, head on a swivel  
Ju fickle, Ju light bright fool  
Ju psychiatrist, convinced Ju-self Ju live the high life, ooh  
Hindsight always tell the story more accurately than most  
She let me in but that ain't much reason to boast

I'm just bangin' Sade, Sade, Sade, Sade  
Bangin' Sade, Sade, Sade, Sade  
Bangin'

Give me time, give me space  
What's on your mind?, It could wait  
Plenty ridin' on my plate  
Music get me on a date  
I love the way, 'for I known ya  
Still got so much to say, am I wrong?  
Forgivin' my every day, I belong  
Performin' on every stage 'til I'm on

I'm bangin' Sade, Sade, Sade, Sade  
Bangin' Sade, Sade, Sade, Sade  
Bangin' Sade, Sade, Sade, Sade  
Bangin' Sade, Sade, Sade, Sade
