

# Top Of The Morning

D Smoke

Yeah, yeah

Don't get it fucked up  
It's love in here  
Top of the mornin', lookin' up  
Grateful for another year  
Don't get this shit twisted, nigga, we with the business  
But everything we do for our family and the kids  
So don't get it fucked up  
It's love in here, uh

Love is patient and passionate pursuit  
Say hello to the newest ambassador for truth  
Nobody could do this all alone  
So as I grow, I hope to secure another recruit  
Danny Glover with the weapon, I'm lethal as ever  
Blessed with natural ability, peaceful and clever  
On the easel, I scribble sketches, put enemies over stretchers  
With the only weapon known to put trees in the desert  
He's in a better space than he was less than a year ago  
Reclinin' in the midst of violent opposition  
I find it intriguing that people project what they fearin', yo  
Responsibility to self says prioritize your health  
And let go of any fuck shit, that's spiritual  
But a musket is a must for these haters and trust  
I ain't too elevated to go irate and leave 'em degraded  
Layin' face down over the pavement

Don't get it fucked up  
It's love in here  
Top of the mornin', lookin' up  
Grateful for another year  
Don't get this shit twisted, nigga, we with the business  
But everything we do for our family and the kids  
So don't get it fucked up  
It's love in here, yeah

The faint of heart'll say they don't believe it  
'Cause it's easy to maneuver when you fake as a weave is  
Greatness'll leave you isolated in places where leeches  
Can't even reach you, homie  
They never teach you only real feel the weight of they whole team  
Closely knit, tightly stitched with strong seams  
Take a risk, safety is points for the wrong team  
Wait, scratch that, I'm talkin' abstract  
Now, let's look back at a time when I was laying my head down in my place of  
business  
Didn't have any kitchen, no shower, plates, or dishes  
Was makin' rent but could barely afford to pay attention  
When opportunity knocks, somethin' like Jehovah's Witness  
You know it's written into your story just to answer that  
That's when I call out to God, knowin' She answer back  
Used to think I was in charge, but I know better  
So for now, we just enjoyin' the weather

Nigga, don't get it fucked up  
It's love in here

Top of the mornin', lookin' up  
Grateful for another year  
Don't get this shit twisted, nigga, we with the business  
But everything we do for our family and the kids  
So don't get it fucked up  
It's love in here

Paciente, amable, humilde  
Fuerte y nunca débil, pues  
Libre pero disponible a ayudar cuando uno necesita  
Cuidar a otros es la tarifa  
Por nuestro tiempo mientras que estamos en esta tierra  
Hacemos con las manos lo que el cielo quiera  
Cuando uno da control al viento siempre vuela  
Escapa lo de abajo

So, my nigga, don't get it fucked up  
It's love in here  
Top of the mornin', lookin' up  
Grateful for another year  
Don't get this shit twisted, nigga, we with the business  
But everything we do for our family and the kids  
So don't get it fucked up  
It's love in here, yeah
