

## How Could I Forget

D'Sound

Sometimes I do silly things  
I just jump and then I think  
Makes a mess of everything

Sometimes I run out of time  
Overlooking crucial signs  
Too afraid to place my bet

If I have problems when we get too close  
Don't let those problems waste what we got

How could I forget your smile  
How could I forget the way you loved me  
And how could I just let you down  
How could I ever make you want me again  
The way I want you now

If I have problems when we get too close  
Don't let those problems waste what we got

It's not so nice there in the cold  
But I made my bed and now I know  
This bitter medicine is mine, oh mine  
If I could find the perfect words  
To stop your tears and mend your hurt  
To make you believe in me again
