I swear on Big Proof I ain't stoppin'  
I'm not from the projects but the pistol was poppin'  
Before you reach and cock it, it split through your optics  
They talk about who really can rock it, who set a few trends  
Who killing them shows, I walk in, they switching the topic  
My crew is head of the pack, my wall is covered in plaques  
Runyon Ave still got my back, my crib flooded with gats  
Lyrically I am smack mixed with heroine and crack  
See Jesse and Mr. White be selling me by the packs  
Schooled by Dr. Dre, yo Marshall done paved the way  
Told us if you wanna sail, you gotta go against a wave  
That's why I'm known to serve a nigga any given day  
When I walk away they talk about what they was finna say  
Check 'em and then I tell these little niggas, "Get in line"  
They know it all, how you gon' teach the sun how to shine?  
Homie this here is mine, I'm hungry I'm on my grind  
I'm the last of my kind, I'm bred from '99, and I'm repping

Platinum plaques, international rap artists give us dap  
Then ask when we coming back  
We done raised the bar, left a scar on your A&R  
We done came too far, freestyling in local bars  
To world tours and packin', I'm outrappin' your favorite rapper  
Half of these bastards Draculin' my tactics  
Had 'em laughin' off of pills, as soon as we signed a deal  
These haters thought that we couldn't pull it off, now we did  
We back on our bullshit, we spazzin' on 'em again  
With gold paper, insulated booth and platinum pen  
When I'm writin' I bet lightnin' will strike this mic  
I recommend you to pay homage, knocking us is a sin  
These rappers are held accountable for doubtin'  
The most powerful rhymers that ever dropped an album, we ain't stoppin'  
Staying dirty in the cut, our blood's thicker than mud  
We ain't gotta prove nothing, these niggas don't give it up  
I'm repping the
