

Atomic Land

d4vd

There's something about you
That I don't understand
If my arms were around you
Would you love me again?

We could go to the beach
And dip our toes in the sand
Love was never this dangerous
This is atomic land

You were looking at me
Like I did something wrong again
Your expression says more to me than
Words we never said

Oh, we could be imaginary
But you're real to me
I don't wanna dream
If that dream don't have you and me

When I'm not around you
Honey, I don't feel so good
I wanna renounce you
But I don't think that I could

You can eat me alive
You can tell me you hate me
You can tell me to walk away
But I don't think that I can

You're my guardian angel
But you act like a demon
You don't believe in the afterlife
But babe, just know I've seen it

Oh, we could be imaginary
But you're real to me
I don't wanna dream
If that dream don't have you and me
