

## Bleed Out

d4vd

Late in the afternoon  
I watched you as you leave  
You said you'll be back soon  
You've got blood on your sleeves  
The pieces you cut from me  
I bleed out  
The pain and suffering  
I'll take now

I look into your eyes and I can see right through your lies  
And it's a terrible disguise  
I think we both know who dies here  
Too much on your mind  
The truth is what you hope to find  
But you won't leave the past behind  
You're the only one that lies here

Late in the afternoon  
I thought I saw you leave  
But you're still next to me  
The blood stains on your sleeve  
Stay away from me  
I won't be deceased

I look into your eyes and I can see right through your lies  
And it's a terrible disguise  
I think we both know who dies here  
Too much on your mind  
The truth is what you hope to find  
But you won't leave the past behind  
You're the only one that lies here
