

Decide

d4vd

I decide, you decide, we decide, we can't go back
I don't know, you don't know, we don't know, just stay right there
Can't we just take our time? We don't have to get attached
I know what the problem is

I cannot wait, until I undo all my mistakes
Maybe then we can just run away
Tell me do, you feel at home when I'm by my side
I hope you feel the same way, I do

Take me far, I'm lifting off
The weather seems to fail

I decide, you decide, we decide, we can't go back
I don't know, you don't know, we don't know, just stay right there
Can't we just take our time? We don't have to get attached
I know what the problem is
Save your tears, seven years
I know life is complicated
You don't have to say no more
Don't know if I'm going to make it
We both have to find a way to work it out
My head is aching
You're the one that started this

Someone find me
I'm in hiding, away
I'm in here with
Every fear you save

Watch your step, getting close, to the edge
Praying you don't fall

I decide, you decide, we decide, we can't go back
I don't know, you don't know, we don't know, just stay right there
Can't we just take our time? We don't have to get attached
I know what the problem is
Save your tears, seven years
I know life is complicated
You don't have to say no more
Don't know if I'm going to make it
We both have to find a way to work it out
My head is aching
You're the one that started this
