

# Feel It

d4vd

What do you have in store?  
One life away, you can't explore  
But I don't want to get in the way no more  
Cause this the type of feeling you can't ignore (Aye)  
I'm ready to break down the door  
Settle the score  
I can't let you go away  
I miss the smile off your face  
You know that I lo-lo-lo-love the chase

You told me once that I was crazy  
I said "baby girl I know, but I can't let you go away"  
So don't you get me started now  
I want a yes, I don't want maybes  
Cause they leave me where you found me  
So don't leave

Ooooh  
I just love the way you got me feeling  
And now I feel it  
It's like (Ooooh)  
Take away the pain  
Baby, I'm healing  
Baby, I'm healing  
I don't need anything more  
Be the wave, I'll be the shore  
Crashing all over me  
I want you

What do you have in store?  
Type of girl that make me drop-dead on the floor  
This the only girl that I love and adore  
This the type of love you can't ignore

I said, "Hey! She coming my way"  
She running round saying whatever she wanna say  
I told her I don't wanna have to do this everyday  
Told her that I love her but she thinking it's a game  
Oh, no! Now she uncomfortable  
Never wanna make it for one dimensional (Oh, yeah-oh, nah-nah)  
Don't know how we got there, don't you get me started now

You told me once that I was crazy  
I said "baby girl I know, but I can't let you go away"  
So don't you get me started now  
I want a yes, I don't want maybes  
Cause they leave me where you found me  
So don't leave

Ooooh  
I just love the way you got me feeling (Ooh, you got me feeling)  
And now I feel it (Ooh, you got me feeling)  
It's like (Ooooh)  
Take away the pain  
Baby, I'm healing (Baby, I'm healing)  
Baby, I'm healing (Baby, I'm healing)  
I don't need anything more

Be the wave, I'll be the shore  
Passion all over me  
I want you
