

NEVER AGAIN

d4vd

Never again
It's been the wrong time for a long time
Only love me in the night time
Something's going on

Can you tell me what's wrong?
You been away for too long
You know I hate it when you're gone
I gotta bring you back home
I was so focused on you and I
Late nights on the road it was just you and I
I want you all to myself
I want you all to myself

So baby come through
Through
But never, but never
But never, but never
But never, but never again
