

Let me put you on
Last night after the show you was gone
You know I just wanna hold you in my arms
I'm not gon' hurt you, baby don't be alarmed
So can you take my hand?
I love you, do you not understand?
I know that you got different plans
I'm just tryna save you from your man
I'm the man
So talk to me slow
So I can hear every word that you spoke
Do you love me, baby? I just wanna know
Did you seen every message on your phone?
Cause they were from me, they were from me
They were from me, yeah, they were from me
Yeah, they were from me
They were from me, they were from me
Yeah, they were from me, yeah, they were from me

Check it out

I just want you to myself
But you be wanting someone else
I know you're bad for my health
But I'm in love with you, oh well

Let me put you on
Last night after the show you was gone
You know I just wanna hold you in my arms
I'm not gon' hurt you, baby don't be alarmed
