

## Right Now

d4vd

If you don't want it, then I won't give it to you  
But I'll make you need it, I'll have you feening  
When you see me, in the morning or the evening  
Blowin' my phone up  
Baby, I can hear it ringing, coming over in a sequence  
We can deal with the consequences later  
But right now, right now, right now

You coming home with me  
Driving so slowly, please God watch over me  
'Cause I think I'm losing control of me  
If I'm being honest, I'm tryna get you alone with me  
Alone, alone

But now I think I'm having second thoughts  
You are not the person that I thought you were  
I think we should stop before we start  
I shoulda never listened to the voice I heard, in my head  
Get out of my bed, shawty, get dressed  
I don't wanna do this no more  
But then you convinced me  
Intoxicated by the way you kissed me on my neck  
Told me to lay back, you'll relieve my stress  
Now we doing things I can't even say in a song  
It feels so right, but it feels so wrong  
You said you haven't felt like this in so long, so long

If you don't want it, then I won't give it to you  
But I'll make you need it, I'll have you feening  
When you see me, in the morning or the evening  
Blowin' my phone up  
Baby, I can hear it ringing, coming over in a sequence  
We can deal with the consequences later  
But right now, right now, right now
