

Run Away

d4vd

I got issues but you wouldn't know
So many times that have I tried not to show 'em
Please don't run away, don't run away from me
Please don't run away, don't run away from me

What's the issue?
What's up with you lately?
Said you don't want me but you're the one I need
And you run away
Please don't run away
I got a place
If you come stay

Please don't run away, don't run away from me
Please don't run away, don't run away from me
Please don't run away, run away, don't run away
Run away, don't run away from me
