

War

d4vd

I'm not afraid anymore
If you want war, then it's coming to you
I see the tears on the floor but they're not yours
They came from me
What did you do? Why are we fighting?
I feel like we're trying to get rid of each other
But we keep on colliding
Although I'm advised
I can not see this path in front of me

I'm not afraid anymore
If you want war then it's coming to you
I see the tears on the floor but they're not yours
They came from me
What did you do? Why are we fighting?
I feel like we're trying to get rid of each other
But we keep on colliding
Although I'm advised
I can not see this path in front of me

Hold me
And whisper the name of our person
You once knew, knew (you once knew)

I'm not afraid anymore
If you want war, then it's coming to you
I see the tears on the floor but they're not yours
They came from me
What did you do?
Although I'm advised
I can not see this path in front of me

I'm not afraid anymore
If you want war then it's coming to you
I see the tears on the floor but they're not yours
They came from me
What did you do? Why are we fighting?
I feel like we're trying to get rid of each other
But we keep on colliding
